

The **eQOURSE** Ecosystem

Verified Experts • AI Training Data • Scalable Delivery.

Global Expertise. Integrated Delivery.

PEOPLE • TECHNOLOGY • KNOWLEDGE • REAL IMPACT

eQOURSE is a global provider of AI Data Services and Content Services, commercially headquartered in Singapore (eQOURSE PTE. LTD.) with its primary delivery centre in Kota, Rajasthan, India. The company delivers end to end curriculum development, pedagogical localisation across 30+ languages, and AI Data Services including data collection, annotation, cleaning and validation, model testing, and specialised datasets for robotics and Physical AI.

AI Data Services covers data collection, annotation, cleaning, model testing, and specialised datasets for robotics and Physical AI. Content Services covers curriculum, assessments, digital learning, video, localisation, accessibility, and publishing.

TUTRAIN brings that same academic rigor directly to students through global one on one and small batch tutoring. All three verticals run on eQOURSE+, our Glass Box AI Data Foundry and verified talent network, over 1000+ vetted SMEs and data specialists collaborating with full transparency and provenance. Global client engagements are managed via Singapore, backed by 24/7 delivery from India.

AI Data Services

High-quality data for a smarter world.

Content Services

Learning content without limits.

TUTRAIN

Global tutoring for brighter futures.

eQOURSE+

Our Glass Box platform for trusted delivery.

Scale & Capability Snapshot

PROVEN SCALE. A STRONGER TOMORROW.

1000+

Verified expert network

30+

Languages & dialects supported

20+

Countries actively serviced

1M+

LLM prompts & RLHF preference pairs processed

20,000+

Video solutions produced monthly

5,000+

Text & step-by-step solutions delivered daily

50,000+ hrs

Speech-data volume handled

200,000+

Computer-vision frames handled

Dual Hub Institutional Operations

TWO HUBS. A STRONGER TOMORROW.

Headquartered in Singapore, the eQOURSE Group maintains a dual structure built for global reliability and operational excellence.

eQOURSE PTE. LTD. (Singapore)

Commercial and legal home; cross-border MSAs, intellectual property protection and tax governance for global clients.

eQOURSE Online Educationers LLP, Kota, Rajasthan, India

High-throughput operations hub; ISO 9001:2015 and ISO/IEC 27001:2022 aligned, powered by Kota's STEM and AI talent.

Government Registrations & Recognition

TRUSTED. RECOGNISED. COMPLIANT.

The eQOURSE Ecosystem

AI Data Services

High-precision, expert-led data for training, fine-tuning, evaluation and safety across generative, multimodal and Physical AI systems.

What We Deliver —

Conventional & Generative AI

STEM Reasoning, RLHF & LLM Evaluation
Expert reasoning data, preference datasets, response grading, hallucination and safety evaluation, AI red teaming.

Speech, Voice & Multimodal Data
Data collection, transcription, speaker diarization, audio annotation and multilingual datasets.

Document AI & Data Curation
Scientific/document parsing, LaTeX/MathML extraction, annotation, validation and benchmark/evaluation datasets.

Physical AI, Robotics & Computer Vision

Robotics Demonstration & Teleoperation
Human demonstrations, trajectory/action data, sub-goal and failure-recovery datasets for VLA and imitation-learning systems.

Computer Vision, LiDAR & Spatial Annotation
2D/3D annotation, point-cloud and semantic segmentation, object and affordance tagging.

Image & Video Data
Visual annotation, defect detection, multimodal video review, computer-vision QA and evaluation datasets.

Quality, Security & Compliance —

Quality systems

Two-tier human supervisor audit, continuous quality gates and target annotation accuracy of 98%+.

Agreement metrics

Inter-annotator agreement exceeding 0.85 Cohen's/Fleiss' Kappa where applicable.

Data security

GDPR-aligned workflows, PII masking/redaction, secure VDI/VPN access and controlled annotation environments.

Management systems

ISO 9001:2015 Quality Management and ISO/IEC 27001:2022 Information Security Management.

Proven AI Data Expertise & Impact —

Conversational AI / FinTech Chatbot
150,000 banking utterances across 85 intents; intent-classification error cut from 22% to 4.8%, entity-extraction F1 raised from 0.71 to 0.93, live escalations down 40%.

RLHF / LLM Fine-Tuning (Global AI Lab)
200+ annotators across 6 languages; safety-violation rate cut from 4.2% to 0.6%, preference scores up 28%, inter-rater agreement ≥ 0.83 Krippendorff's Alpha.

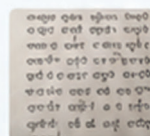

Multilingual ASR (Voice AI Startup)
50,000+ hours of speech across 12 languages; word-error rate down 34% overall, with Tamil and Telugu WER improving from 62% to 89% accuracy.

Medical Imaging AI (Healthcare Startup)
25,000 chest X-rays annotated by 15 annotators and 3 supervising radiologists, reaching 94.7% sensitivity and 96.1% specificity.

Computer Vision (Autonomous Vehicle Company)
200,000+ dashcam frames across a 45-class taxonomy, 98.2% annotation accuracy, model mAP raised from 54% to 91%.

OCR for Indic Handwriting
100,000+ handwritten images; Devanagari recognition accuracy raised from 68% to 94%, Tamil to 91%, Telugu to 89%.

START WITH A PILOT

Validate production-grade data quality before scaling.

Learning Content Services

End-to-end curriculum, assessment, courseware and learning-asset development for EdTech companies, publishers, school networks, ministries and digital learning platforms.

The Opportunity

International educational institutions and digital platforms need mathematically rigorous, error-free, Bloom-aligned content that integrates seamlessly into proprietary LMS environments. eQOURSE functions as an outsourced, institutional content development laboratory delivering thousands of complex items with verified step-by-step solutions, animated explainers, and comprehensive metadata tagging.

What We Deliver

Service Area		Capabilities
	Global K-12 Curricula & Standards	 Curriculum Mapping, Adaptation & Localisation- Cambridge International, Pearson Edexcel, International Baccalaureate (IB), US Curriculum: Common Core, NGSS, State Standards & AP, CBSE, ICSE & ISC, Australian Curriculum, Singapore Curriculum
	Curriculum Design & Development	 Curriculum Design & Mapping- Textbooks & Workbooks, Lesson Plans & Teacher Resources, Study Guides & Learning Materials, Question Banks & Assessments, Worksheets, Activity Books & Practice Resources, Digital & Blended Learning Resources, STEM/STEAM, Coding & Robotics Curriculum, Higher Education Resources, Instructional Design, Academic Review & Quality Assurance
	International Test Prep	 International School Exams: IGCSE, GCSE, AS/A Level, International A Level, IB & AP; University Admissions: SAT, ACT, GRE & GMAT; English Proficiency: IELTS, TOEFL, Aptis ESOL & PTE; Exam-Aligned Question Banks, Mock Tests & Practice Papers, Diagnostic & Placement Tests, Detailed Solutions & Explanations, Exam Blueprinting & Difficulty Mapping, Past-Paper-Style Question bank Development
	Video & Multimedia Learning	 Video solutions, animated explainers, 2D/3D visuals, simulations, interactive and immersive learning assets.
	Learning Platforms & Courseware	 LMS integration, digital assessments and HTML5, SCORM, xAPI, cmi5 courseware with AI-enabled learning and analytics.
	Localization & Accessibility	 Translation, cultural adaptation, subtitling, voice-over, multilingual localization and WCAG-aligned accessibility.
	SME, Publishing & Content Governance	 Subject Matter Expert sourcing, academic review, QA, editorial workflows, digital conversion, metadata, design and publishing support.
	Corporate & Workforce Learning	 Corporate training, professional development, certification, compliance content, psychometric assessments and skills evaluation.

5-Stage Academic Quality Assurance

Proven Learning Content Expertise and Impact

Capability Area	Proven Scale & Coverage
 International Curriculum & Assessments	Delivered across IB, Cambridge, Pearson Edexcel, UK Curriculum, CEFR/APTIS, SAT/AP and competitive STEM, from K-12 through higher education.
 Question Banks & Academic Content	Large-scale question banks, assessments, worked solutions, textbook solutions and academic Q&A, from thousands of items per month to 200,000-250,000+ question programmes.
 High-Volume Content Operations	Delivery capacity demonstrated at 2,000-4,000 academic items per day and 10,000+ questions per month across specialist programmes.
 Video & Multimedia Learning	Tens of thousands of STEM video solutions, whiteboard explainers, instructional videos, animations, presentations and interactive digital-learning ascate.
 AI Content QA & Validation	Human and AI-generated content review, response grading, factual and reasoning validation, academic QA and structured quality checks at scale.
 LMS, Courseware & Digital Learning	Full-syllabus LMS/CMS content, interactive courseware, assessments, corporate e-learning, platform implementation and ongoing learning-content support.
 Multilingual & Localization Services	Translation, transcription and localization across multiple international and Indian languages, including video, worksheet, assessment and teacher-training content.
 Metadata, Tagging & AI-ready Content	Curriculum/topic tagging, taxonomy mapping, annotation, metadata enrichment and structured content preparation for AI-enabled, adaptive and digital learning platforms.
 Publishing & Learning Assets	Worksheets, assessments, Schemes of Work, learning-outcome plans, booklets, presentations and large-volume print/digital publishing programmes.
 Scalable Expert Delivery	Our scalable expert network ranging from focused SME groups to 100+ member delivery teams, including SMEs, reviewers, QA experts, writers, linguists, multimedia and platform specialists.

START WITH A CONTENT PILOT

www.eqourse.com

GLOBAL 1-ON-1 TUTORING

TUTRAIN is our dedicated global tutoring company, delivering personalized 1-on-1 live tutoring, academic mentorship and high-stakes exam preparation to internationally minded students.

Trust. Teach. Train. Transform.

Academic Scope

International Baccalaureate (IB)

MYP, PYP and IB DP – Mathematics AA & AI, Physics, Chemistry, Biology, Internal Assessment and Extended Essay mentorship.

Cambridge & Edexcel

GCSE and A Levels across Mathematics, Sciences and Economics, including past-paper and exam-technique support.

US & Global Exam Preparation

Digital SAT, Advanced Placement and competitive/Olympiad foundations.

How TUTRAIN Works

Diagnostic Baseline

Identify prerequisite gaps, learning pace, confidence and problem-solving patterns.

Personalized Roadmap

Build a milestone-driven learning plan mapped to school syllabus, assessment dates and student goals.

Active Learning

Use live problem-solving, active recall and formal answer-writing to build mastery and exam readiness.

Progress Visibility

Track topic-level progress, session records and parent-facing updates with coordinator support.

The 4-Stage Tutor Vetting Process

www.tutrain.com

We accept fewer than 2% of tutor applicants.

Screening 1 — Academic Pedigree

Verified degrees from premier engineering and research institutions (IITs, NITs, Central Universities, Master's in Education).

Screening 2 — Subject Mastery Exam

A 90-minute timed exam testing complex problem-solving and multi-pathway derivation.

Screening 3 — Pedagogical & Empathy Audition

A live simulated teaching demonstration, evaluated on clarity, digital-whiteboard proficiency, and student rapport.

Screening 4 — Continuous Quality Auditing

Ongoing review of session recordings, student feedback scores, and grade improvements.

Every tutor and every process is designed around three outcomes: student confidence and clarity, parent reassurance and visibility, and genuine tutor empathy and mentorship.

COMPLIMENTARY DIAGNOSTIC ASSESSMENT

Start with a no-cost first session and a clear learning roadmap.

TUTRAIN
Trust. Teach. Train. Transform.

eQOURSE+

Integrated Delivery & Operations Platform

eQOURSE+ is our workspace and shared operating layer that unifies delivery across AI and content services workflows. It brings global clients, verified experts, agency partners, quality auditors, and delivery managers together in a single, highly structured ecosystem to collaborate with end to end transparency and operational rigor.

PEOPLE | PROCESSES | PLATFORM

BUILD
COLLABORATE
DELIVER

ONE SYSTEM OF RECORD FOR DELIVERY

1

Verified Talent & Company Onboarding

Global company and individual onboarding, country-aware KYB/KYC document capture, encrypted compliance storage, and vetting queues that keep every profile accountable.

2

Workforce Management

Centralized profiles and skill taxonomies for project managers, coordinators, domain experts, and academic leads, enabling precise, evidence-based role allocation.

3

Partner Management

Partner integration, sub-team tracking, capacity planning, and SLA monitoring across accredited agency partners and their expert teams.

4

Project Execution

End-to-end task assignment, batch management, milestone tracking, and operational delivery management across every active project stream.

5

Secure Delivery Pipeline & Glassbox Transparency

An enterprise grade pipeline featuring sandbox testing environments, live Glass Box telemetry, workforce allocation tracking, and complete audit visibility.

6

Quality & Approvals

Multi-stage audit workflows, automated quality gates, client feedback integration, and formal sign-offs, every result traceable to its source.

7

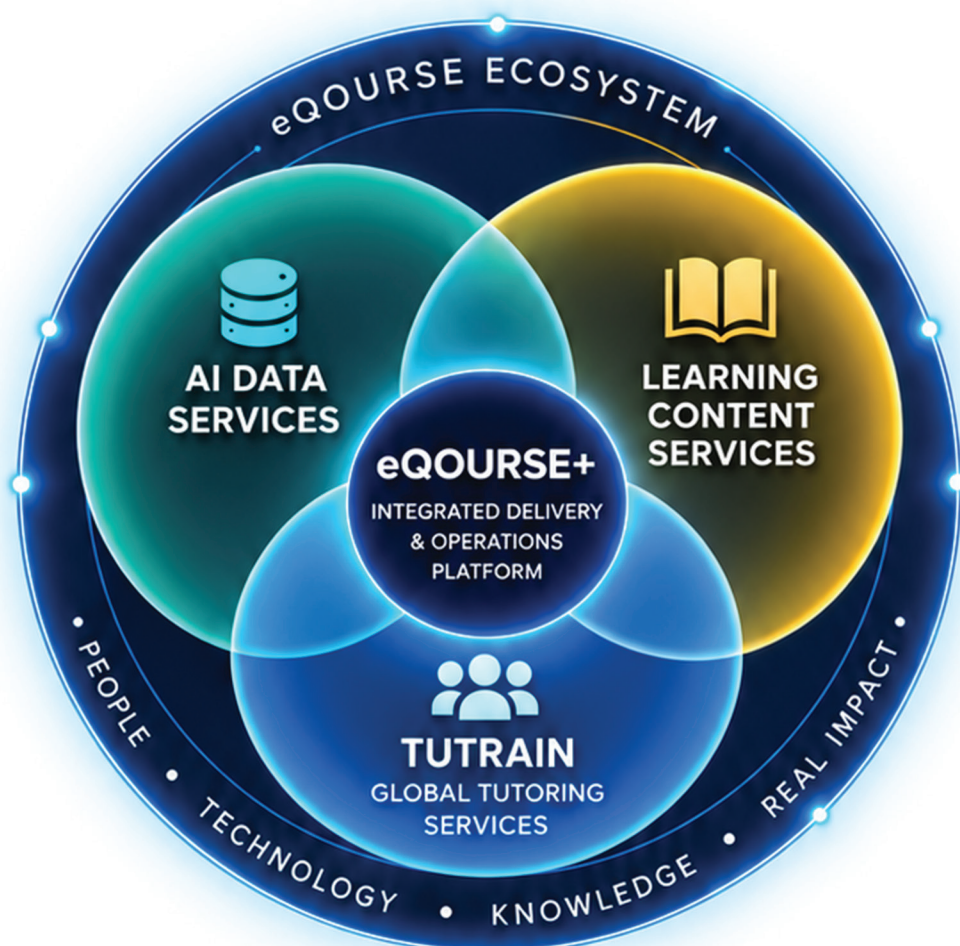

Transactions & Payouts

Automated billing, work verification logs, milestone based disbursements, and payout records across every transaction.

One Ecosystem, Connected by eQOURSE+

eQOURSE, TUTRAIN and eQOURSE+ have distinct roles, but they operate through shared academic standards, verified expert networks and connected infrastructure. The result is a coordinated delivery ecosystem, not three competing verticals.

eQOURSE & TUTRAIN

Curriculum expertise, assessment frameworks, subject matter expertise, AI/data capabilities and learning technologies developed through eQOURSE strengthen TUTRAIN's learning resources, tutor support, personalised pathways and academic standards. TUTRAIN also extends learning into AI, coding, data science, digital literacy and emerging technologies, supported by technology-enabled diagnostics and progress tracking.

eQOURSE & eQOURSE+

AI data and content engagements are operationalized through eQOURSE+: talent onboarding, vendor management, staffing, task execution, quality review, client feedback, approvals, delivery and payout records.

eQOURSE+ & TUTRAIN

The same platform infrastructure supports selected TUTRAIN operations, helping coordinate verified talent, workflow visibility, quality tracking and relevant transactions without changing TUTRAIN's independent tutoring identity.
